THE CERTIFICATION AND BUSINESS ENHANCEMENT APPROACH

Organizations today are met with a variety of operational and business challenges. External forces, like competitors and regulatory bodies, also add a secondary level of pressures that must be anticipated. Additionally, both B2B and B2C firms are experiencing a large influx of customer data, across multiple touchpoints. The dividing factor between those who are successful and those who are not, is how they analyze and use that data for business enhancement. At SGS, we have developed a variety of solutions to not only meet these needs, but establish more efficient and profitable ways of working. Using our 140 years of experience and operational data set, we partner with clients to gain intelligent insights into their current business functions while simultaneously strategizing for the future. To meet the needs of our current customers and provide effective and modern solutions to current and future business issues, we offer three pillars of insights driven, customizable products and solutions.

THE BUSINESS ENHANCEMENT PLATFORM

For decades, SGS has been known as the global leader in certification, working with clients in virtually any sector. This deep and broad experience in quality control management, regulatory compliance, and training has resulted in a staggering array of data points across industries. Utilizing this dataset, we have evolved our service offerings to include Business Enhancement—the process of transformation that improves or increases the value of an organization’s people, processes, product or service. Our Business Enhancement solutions offer the most up to date, practical insights to help you achieve your goals and ultimately BE the Benchmark.

SGS BUSINESS BENEFITS

- Deliver innovative solutions and services that enhance businesses
- Offer customized solutions, driven by proprietary insights
- Provide services fundamental to ongoing success and sustained growth
- Enable continuous improvement
- Transform value chains

SGS ACADEMY

THE GLOBAL SGS ACADEMY

The SGS ACADEMY network spans the whole world, delivering courses in multiple languages in multiple countries. Our culturally sensitive content and approach reflects the SGS global expertise and gives you the opportunity to achieve your learning goals wherever you are.

SGS ACADEMY PORTFOLIO OF ACCREDITED TRAINING

SGS ACADEMY delivers globally and locally a wide range of courses in over 20 languages across a number of industries. The portfolio focuses on various levels of competence that include: Introduction, Awareness, Implementation, Internal Auditor and Lead Auditor.

SGS offers audit and certification services to enhance our customers' business processes and help them to deliver extra value, improve quality management and performance, minimize risk and gain competitive advantage.

WHY CHOOSE SGS?

As the leader in professional training, we draw on our years of worldwide experience to provide effective learning and development opportunities. We make a difference to individuals, teams and businesses, nurturing talent and enabling continuous organizational progression. Our specialists partner with course participants, identifying improvement objectives and supporting the professional journey.
